"Our law firm was looking to host a staff appreciation outing and we came across the idea of an evening of laughs. We knew we wanted something interactive where some of our staff would be able to participate. Village Theatre was terrific! From the moment we contacted the theatre, we knew we were in for an awesome experience. When we arrived everything was set up and the staff had a wonderful evening. As owners of the law firm, we were so impressed with Village Theatre that we contacted them again in January of 2013 and were repeat customers for our daughter's 12th birthday party. The workshop they put together for our daughter and her friends was phenomenal. The kids are still talking about it! We highly recommend Village Theatre for your next event."

"Village Theatre was really receptive to suggestions from us. I appreciated the time they took to figure out what our event was and what focus we wanted so the games and skits they did fit with our conference. After a long conference day of sitting, listening, and talking, an improv show like this that had us laughing and laughing was definitely what we needed. I like that the interactive elements of this Improv show ended up bringing out a different side to some people that we usually don't get to see. This was a hilarious show and the best thing we planned for the evening for our Conference participants."

"Our yearly department forum involves staff from around the world and all age levels. This year, we decided to do something different for our after hours event. The Village Theatre stepped up to the challenge and delivered a knockout performance. We even had our department leader do an Armando for the long form set. The result - feedback from all our team was that was "outstanding, great event and a perfect event for everyone. The staff at VT made sure all the details were covered to include bar service, a cast welcome reception and audience participation. If you are looking for the perfect department event - a private performance by the Village Theatre should be a option at the top of your list."
